

WEC — Investment Proposal

Executive Summary

2025-09-09

Raising USD 1.2M via SAFT for 12% of total supply (12,000,000 WEC). Target TGE price \$0.10; investor price \$0.08 (20% discount). Funds support token launch, liquidity, and cross-hub integrations with measurable utility.

Use of Funds

2025-09-09

Liquidity & Market-Making 25%; Product & Engineering 20%; Marketing/PR/Community 20%; Ecosystem Grants & Partnerships 10%; Operations & Hiring 10%; Compliance/Audit/Legal 5%; Working Capital for Hubs 10%. Multi-sig with milestone-based releases.

Milestones & Timeline

2025-09-09

M1-2: Final tokenomics, SAFTs, audit engagement, hub live. M2-3: Wallet connect, price widget, PR, LP plan. M4: TGE + listings. M5-9: Cross-hub integrations and grants. M10-12: Second listing, KPI targets, investor updates.

Investment Terms

2025-09-09

Instrument: SAFT. Allocation: 12% supply. Vesting: 3-month lock then 9-month linear. Rights: information rights and pro-rata in token rounds. Jurisdiction and tax to be confirmed with counsel.

Liquidity & Return Strategy

2025-09-09

LP seeding at TGE with MM partner. Demand drivers: payments, staking, and access across hubs. Transparent dashboards and quarterly reporting to investors.

Risks & Mitigations

2025-09-09

Regulatory, market, execution, and security risks mitigated via counsel, staged emissions, milestone-based spending, audits, and bug bounties.
